

## WHAT IS THE GENE0?

Geneo is the ultimate facial treatment platform achieving a younger, fresher and of course better skin appearance.

Offers a unique three-in-one (3-in-1) treatment that works on both the outside and inside of the skin, combining clinically approved technologies:

OxyGeneo, TriPollar RF, and Ultrasound

With these technologies, Geneo activates natural body processes, in order to strengthen and renew the skin.

## HOW DOES IT WORK

The Geneo has 3 separate heads that offer the unique benefits of three patented technologies - OxyGeneo, TriPollar RF, and Ultrasound.

Each technology can be used individually to take advantage of its benefits, or in combination to achieve more complete results.

## ADVANTAGES of GENE0?

### **Immediate lasting results**

Effective formulations and treatment kits that provide immediate and long-term results, for the regeneration, cleansing and rejuvenation of the skin, thus achieving the overall improvement of the texture and appearance of the skin.

### **Personalized and flexible treatment**

A single platform that contains 3 powerful technologies that can be used separately or in synergy in order to meet in the best way and the most demanding stakeholder.

### **Safe and enjoyable**

Proven and scientifically proven technologies, designed to stimulate the natural mechanisms of reconstruction and regeneration of the body, painlessly and without staying at home.

# GENEO Technologies

## OXYGENEO - 3 in 1 facial treatment

Revolutionary therapy OxyGeneo offers the unique triple effect of exfoliation, natural oxygenation and absorption of active ingredients.

**Exfoliation:** The active capsule that adapts to the scalp exfoliates the upper layer of the skin and removes dead cells, thus smoothing and rejuvenating the skin.

**Oxygenation:** Oxygenation of the skin is done internally (**intra-dermal oxygenation**), with the natural way of oxygenation of the cells.

Bubbles CO<sub>2</sub> are released into the skin and cause the body to send oxygen-rich blood to the area (**Bohr effect**). This action increases the microcirculation of the blood and the metabolism of the cells.

**Absorption:** At the same time, the active capsule makes the skin extremely receptive to absorb a "cocktail" of beneficial substances contained in it and the enriched gels that are combined during the treatment, giving the skin an incomparable radiance and youthfulness from the first treatment.

## Tripollar RF - Radio Frequencies

Collagen and elastin are important elements of the skin that degrade over time and lead to the creation of fine lines and wrinkles. The pulsed radio frequency electromagnetic fields generated by the Tripollar RF head heat the tissues in depth, causing the production and remodeling of the collagen and elastin fibers. This fact leads to the improvement of the appearance of wrinkles and fine lines, achieving a renewed and firm skin.

## ULTRASOUND

Ultrasound waves penetrate below the surface of the skin. The micro-vibrations they cause improve blood flow, help maintain skin hydration and mainly increase the permeability of the keratin layer, resulting in increased penetration of the valuable active ingredients we offer, depending on the needs of each skin. Thus, this safe and painless treatment results in further visible improvement of the texture and tone of the skin.
